MZ-WinTranslator - the professional translation assistant for foreign languages

High translation quality
Unique comment control with automatic selection of subject area, sentence order correction, conjugations, and gender selections.

Reference book
Intelligent dictionary search by modifying and varying the search terms, similar to a human translator.

Over 18 years of experience
Fledged program, thousands of customers, future-safe update service.

Speech output
Read texts and dictionary entries in English/German/French/Spanish/Italian aloud (via Microsoft Agent).

**Over 3,058,000 vocables and phrases**
The cooperation with hundreds of users achieved a dictionary with an enormous amount of special knowledge, so even the dictionary would justify the price for the entire program.

Additional dictionaries available
French, Spanish, Italian

Unbelievably low-cost
Full version only 99.00 EUR
Updates beginning at 12.75 EUR

Letter construction kit

The Letter construction kit allows you to create correct German and English business and private letters and e-mails in a very quick and easy way.

Some features at a glance:

- Dictionary and translation function of the main program are always available directly in the construction kit

- Sentences which are not in the library can be translated using the translation program

- Extremely fast search function over all sentences

- Sentence library and category structure are completely editable and extendable without limitation

- Spaces between sentences and the sentence order can be edited at any time; inserting sentences in any space is possible at any later time

- Undo function (up to 50 actions)

- Speech output and print function

- Export as Text, Rich Text or into the clipboard

- Finished letters can be saved as sample letters

- Network ready without further costs

- Context-sensitive online help (English + German)

- Surface language can be entirely switched to German
